## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be persuasive.

### ***Allowable Subject Matter***

2. Claims 8 and 12 – 15 are now allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 8 and 12 – 15 recite, inter alia, a manufacturing method of a head gimbal assembly with a thin – film magnetic head provided with a magnetoresistive effect element comprising the steps of forming a plurality of magnetoresistive effect elements on a wafer, forming a plurality of pairs of connection pads, each pair of connection pads being electrically connected across each magnetoresistive effect element, forming a plurality of thin – film short – circuit patterns on a surface of said wafer, each short – circuit electrically short – circuiting between each pair of connection pads, cutting said wafer into a plurality of bar members so that the plurality of magnetoresistive effect elements are aligned on each bar member, cutting and separating each bar member into a plurality of individual magnetic head sliders, assembling each individual magnetic head slider with a support member to form the head gimbal assembly and thereafter breaking each short – circuit pattern by laser radiation during a subsequent manufacturing process of the magnetic head.. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
